## BUILD FOR THE FUTURE.

None of us stands still. If we are not going ahead, we are drifting backward. And when an individual or a business begins to drift backward, they are headed straight for the scrap heap on high gear.

"How to GET AHEAD," is the problem which confronts each of us every day. Mostly this problem rests with ourselves, with our own efforts—bat there are many outside aids to success which can be used.

one of the most effective ways is to LET FOLKS KNOW OF YOUR CAPABILITIES—of what you can wagon" skid or slide backward.

The merchant can tell about his store, his services, his goods—can tell what he can do for people, in this newspaper every day. Advertisements in large space are like an express elevator—they're speedy in getting one to the top, but if the business is of a character which will not warrant large advertise.

One of the most effective ways is to LET FOLKS KNOW OF YOUR CAPABILITIES—of what you can do for them.

If you are a business man, you need to be as regular and systematic in this particular as the boy starting out.

The Want Columns

Don't let your business "buzzwagon" skid or slide backward. Steer straight and whatever you do, keep off of the road which leads to the dumping ground. Instead of being a "Has-been," it is just as easy and much better to be an "is-er" and a "comer." Try it.
